

Sandoval County Oral Health Program

Oral Health
Services for
Pregnant Women
and Children

SMILE!

Preventive dental services for pregnant women and children 0 to 19 years of age:

- Exams
- Digital x-rays
- Cleanings
- Fluoride treatments
- Referrals to local dentists for treatment
- Personal oral health education & classes

Who will serve you at the Health Commons?

A dentist, a dental hygienist, and a community health worker/dental assistant make up the team that will provide your preventive dental needs

Did you know?

- Pregnant women with poor oral health are seven times more likely to have premature and/or low birth weight deliveries
- Children should see a dentist by their first birthday

Who can receive dental services
At the Health Commons?

Those individuals with:

- Medicaid
- Health Care Assistance Program (HCAP)

For more information, please contact Melissa Gallegos at the Sandoval County Oral Health Program @ (505) 867-2291 Ext. 1737
